

WALL PANNELS.

At **Humming PVC**, we manufacture two varieties of wall panels: **Heavy PVC Panels** and **Light PVC Panels**. The difference between heavy PVC panels and light PVC panels primarily lies in their construction, weight, and intended applications.

Features:

- **Design Variety:** Available in a wide range of designs, textures, and finishes (e.g., smooth, textured, embossed, 3D patterns)
- **Customization:** Can be painted, stained, or laminated to achieve desired colors and effects
- **Durability:** Resistant to impact, scratches, and wear, depending on the material
- **Ease of Maintenance:** Generally easy to clean with a damp cloth or mild detergent.
- **Fire Resistance:** Some materials are fire-rated for safety in commercial and residential applications.
- **Insulation:** Provides thermal and acoustic insulation properties, enhancing comfort and energy efficiency

Materials:

- **Plastic:** **PVC (Polyvinyl Chloride)** panels known for their durability and moisture resistance
- **Metal:** Aluminum, stainless steel, or composite metal panels for modern and industrial aesthetics
- **Composite:** Combination of materials like wood and plastic for enhanced durability and appearance
- **Acoustic:** Panels designed to absorb sound for noise reduction in interiors

Specifications:

- **Dimensions:** Standard sizes vary; typical dimensions range from **4 ft x 8 ft** sheets to custom sizes
- **Thickness:** Typically ranges from **3 mm** to **20 mm**, depending on the material and application
- **Weight:** Varies by material; lightweight materials like PVC are easier to handle and install

Benefits:

- **Aesthetic Enhancement:** Transforms and enhances the appearance of interior spaces.
- **Versatility:** Suitable for various rooms including living rooms, bedrooms, kitchens, and bathrooms
- **Quick Installation:** Can be installed directly onto existing walls or mounted on a framing system.
- **Cost-Effective:** Offers an affordable alternative to traditional materials like stone or solid wood
- **Environmentally Friendly:** Some materials are made from recycled content or are recyclable.
